IPM Statement

It is the goal of Bellevue School District to implement IPM by focusing on long-term prevention for suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our Pest Management Objectives are to:

- Elimination of significant threats caused by pests to the health and safety of students, staff, and the public.
- Prevention of loss or damage to structures or property by pests.
- Protection of Environmental Quality inside and outside buildings, in playgrounds and athletic areas, and throughout the Bellevue School District facilities.

IPM Team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act Requirements, include:

Name	Role
Kevin Lora	Applying pesticides, recordkeeping, and making IPM decisions

Pest Management Contracting

Pest Management Services are contracted to a licensed Pest Control business.

Pest Control Business name(s)

Contact

Mother Lode Pest Control	Dan Parola
--------------------------	------------

Prior to entering a contract, Bellevue School District has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest Identification, Monitoring, and Inspection

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by the custodians and groundskeepers. The results are communicated to the IPM Coordinator.

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:

- Monitoring for vertebrate pest debris by custodians in all work areas.
- Utilizing sticky monitoring boards for vertebrate and invertebrate pest activity. These are checked by custodians and results communicated to the IPM Coordinator.
- Monitoring of gopher and other vertebrate mounds in playgrounds, athletic fields, and other landscaped areas. These results are communicated to the IPM Coordinator.
- Monitoring buildings for wasp and hornet activity by the site custodians. Any activity is reported to the IPM Coordinator.

Pests and Non-Chemical Management Practices

Belleview School District has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Ants	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Chemical Pest Management Practices

If non-chemical methods are ineffective, Belleview School District will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property, and the environment.

Belleview School District expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by Belleview School District staff or licensed Pest Control businesses.)

Pesticide Name	US EPA ID Number	Active Ingredient
Round Up	524-579	Glyphosate
Max Force	432-1264	Bait Gel
Masterline B Maxx Pro	279-3206-73748	Bifenthrin
