

BELLEVUE COVID-19 SURVEY RESULTS

03/08/2022

SIGNIFICANT FINDINGS

SIGNIFICANT FINDINGS: IMPACT

- 62% of the students have had COVID-19
- 50% of the Certificated and Classified staff have had COVID-19
- 64% of the students have missed more than 6 days of school
- 36% of the Certificated and Classified staff missed more than 6 days of work
- 66% of students never tested positive after a close contact
- 66% of students have had their social and emotional well-being somewhat or significantly affected
- 100% of the Certificated staff feel that COVID-19 absences have had a moderate or significant impact on student learning

SIGNIFICANT FINDINGS: MASKING

- 62% of students rarely or never wear masks outside of school
- 98% of parents would feel safe sending their children to school if masks were not required
- 92% of Classified staff would feel safe working if masks were not required
- 67% of TK-3rd Certificated staff would feel safe working if masks were not required
- 100% of the 4th-8th Certificated staff would feel safe working if masks were not required

SIGNIFICANT FINDINGS: VACCINE

- 75% of parents will **not** have their children vaccinated
- 25% of the Classified staff will **not** get vaccinated
- 100% of the Certificated staff **would** get vaccinated
- 81% of students have **not** been vaccinated and do not plan to get vaccinated
- 64% of the Classified staff **have** been vaccinated
- 88% of the Certificated staff **have** been vaccinated

PARENT RESULTS

47/110 Families responded

~75 Students

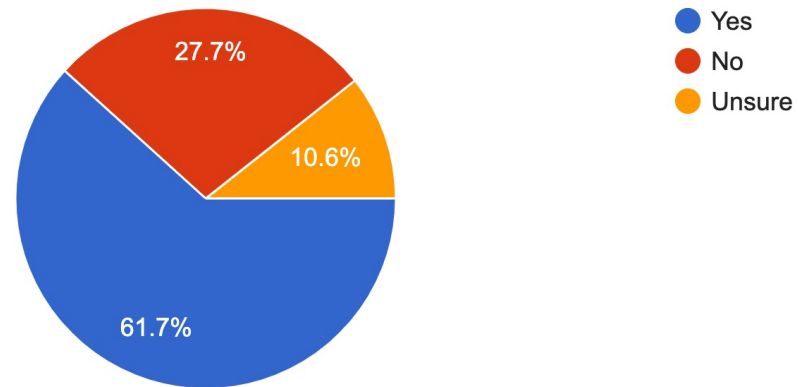

PARENT SURVEY RESULTS: IMPACT

- 62% of the students have had COVID-19
- 64% of the students have missed more than 6 days of school
- 66% never tested positive after a close contact
- 66% of students have had their social and emotional well-being somewhat or significantly affected
- 32% of parents feel that their child's academic needs are being met while absent for COVID-19 reasons

PARENT SURVEY RESULTS: IMPACT

1. Has your child had COVID-19?

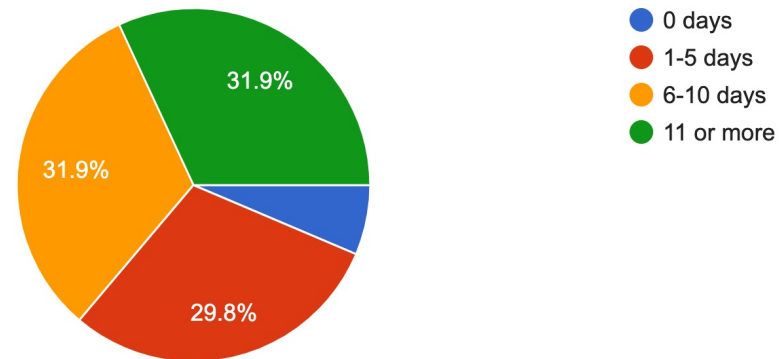

47 responses

PARENT SURVEY RESULTS: IMPACT

2. How many days has your child been out of school due to COVID-19 related reasons? (If you have multiple children that attend the school, what is the number of days that one of your children has been out?)

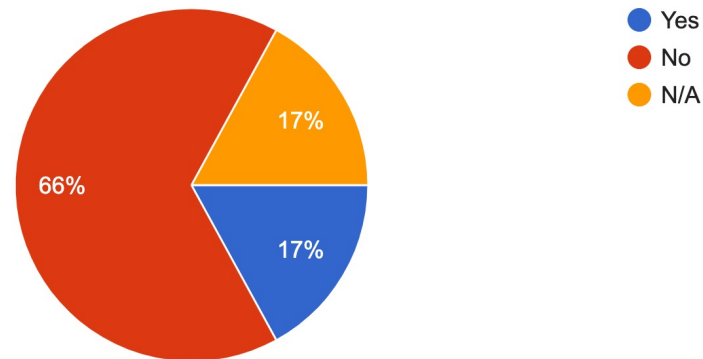

47 responses

PARENT SURVEY RESULTS: IMPACT

3. If your child missed school due to being in close contact with someone who tested positive for COVID-19, did they end up testing positive themselves following the close contact?

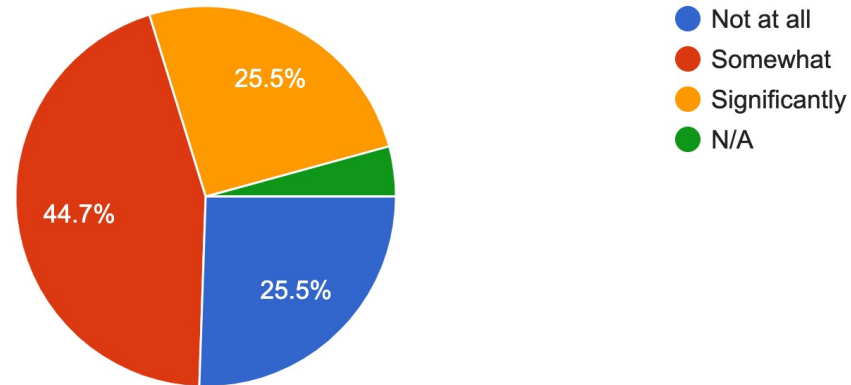

47 responses

PARENT SURVEY RESULTS: IMPACT

4. Has your child's COVID-19 related absences affected your work or family commitments?

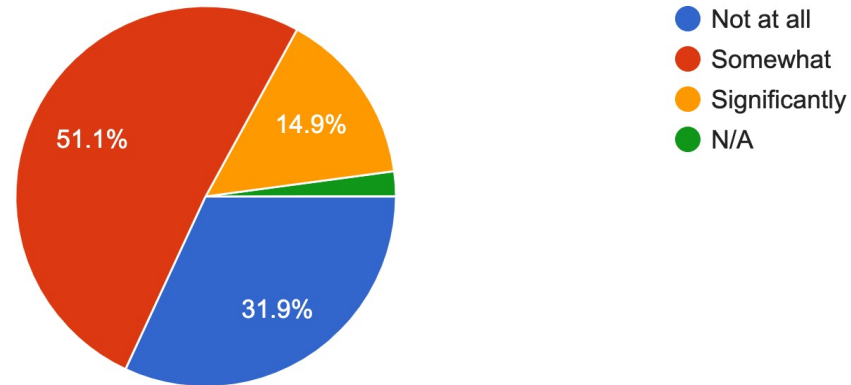

47 responses

PARENT SURVEY RESULTS: IMPACT

5. Has your child's COVID-19 related absences affected their social and emotional well-being?

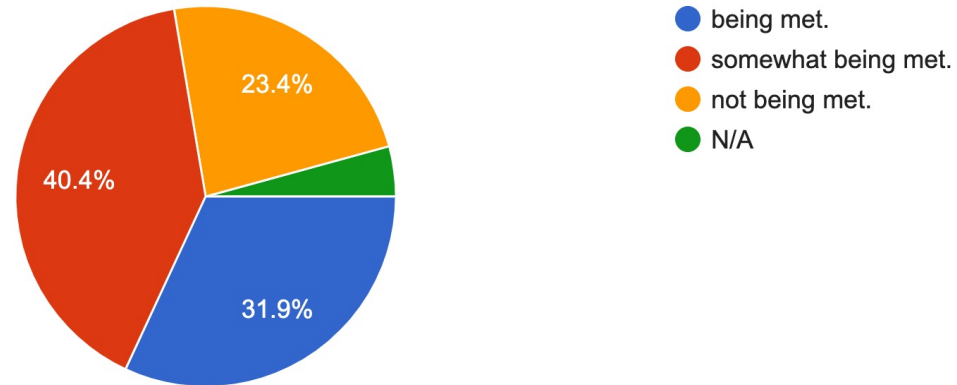

47 responses

PARENT SURVEY RESULTS: IMPACT

6. While out for COVID-19 related reasons, my child's academic needs are:

47 responses

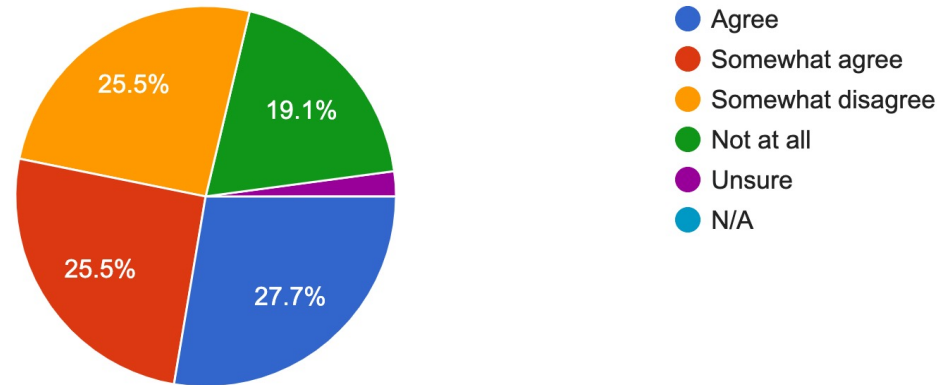

PARENT SURVEY RESULTS: QUARANTINE

- 53% of parents agree that the quarantine rules are reasonable
- 79% of parents feel that the quarantine rules are well communicated
- 87% would prefer testing over quarantining

PARENT SURVEY RESULTS: QUARANTINE

7. School quarantine rules are reasonable.

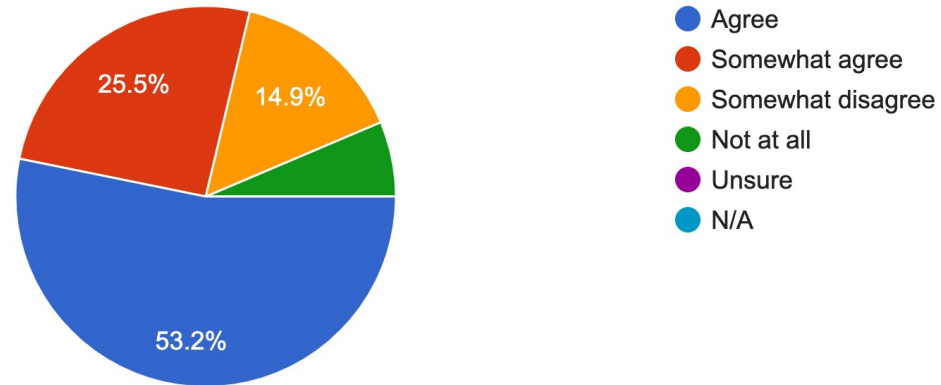

47 responses

PARENT SURVEY RESULTS: QUARANTINE

8. School quarantine rules are well communicated.

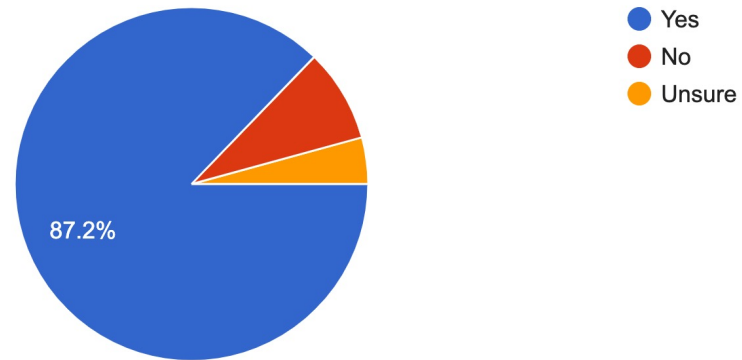

47 responses

PARENT SURVEY RESULTS: QUARANTINE

9. If your child has been exposed or is exhibiting COVID-19 symptoms, would you be willing to have them tested in order to return to school instead of quarantining?

47 responses

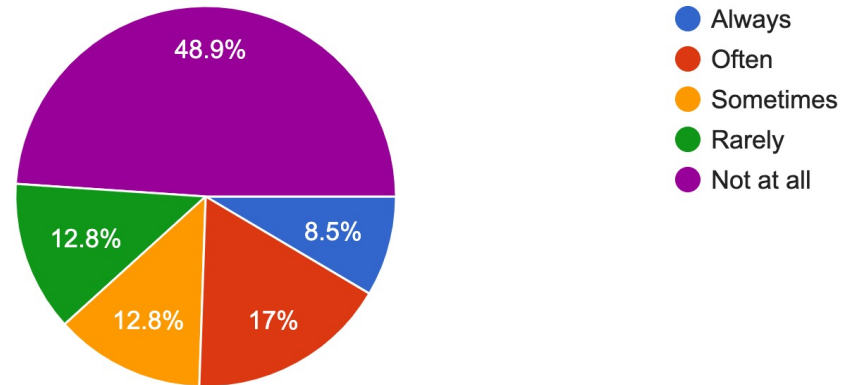

PARENT SURVEY RESULTS: MASKING

- 62% of students rarely or never wear masks outside of school
- 94% of parents feel that masks should be optional or not required
- 98% of parents would feel safe sending their children to school if masks were not required
- 72% of parents feel that masks have affected their child's social and emotional well-being
- 62% of parents feel that masks have affected their child's ability to learn
- 19% of parents would remove their children from school if masks were required next school year

PARENT SURVEY RESULTS: MASKING

10. Other than your home or car, do your children wear masks when they are not at school?

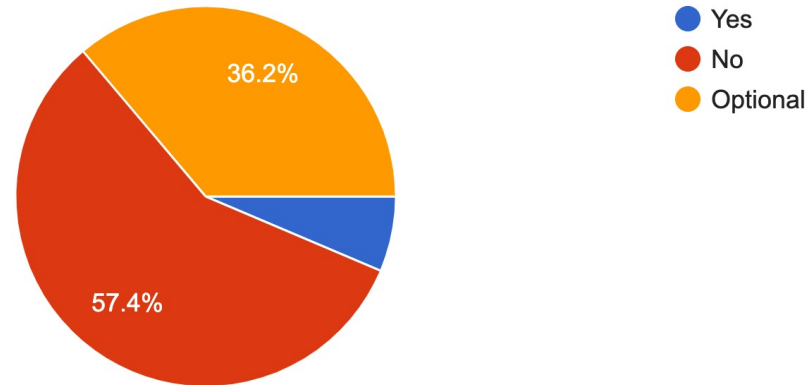

47 responses

PARENT SURVEY RESULTS: MASKING

11. Do you believe that masks should be required for students while indoors?

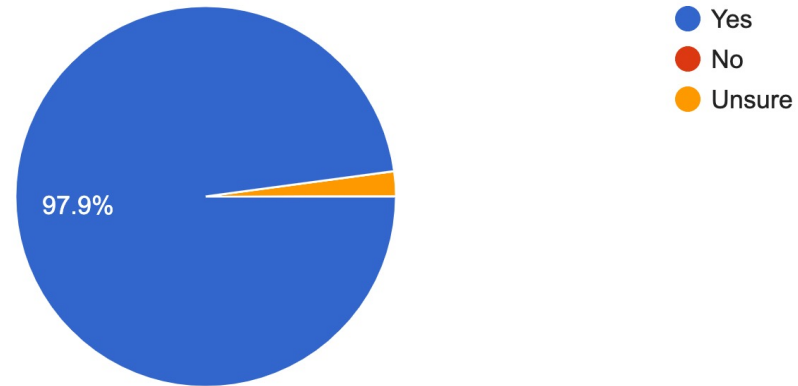

47 responses

PARENT SURVEY RESULTS: MASKING

12. If masks were not required indoors, would you feel safe sending your child to school?

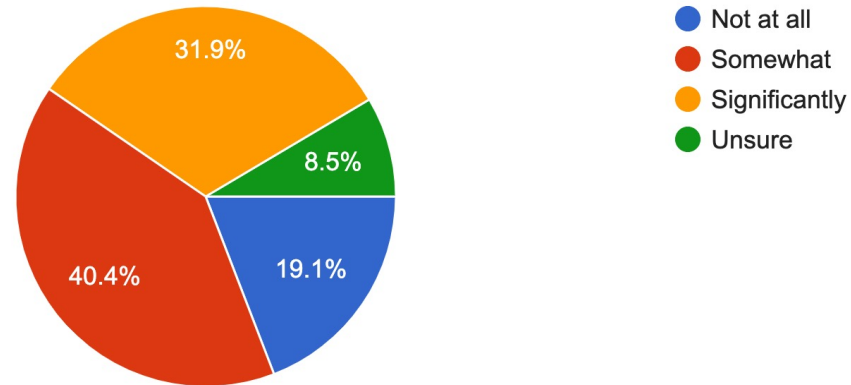

47 responses

PARENT SURVEY RESULTS: MASKING

13. Have mask requirements affected your child's social and emotional well-being?

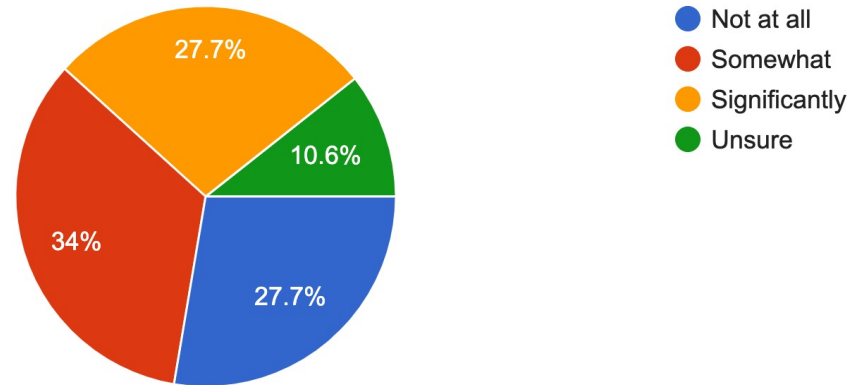

47 responses

PARENT SURVEY RESULTS: MASKING

14. Have the mask requirements affected your child's ability to learn?

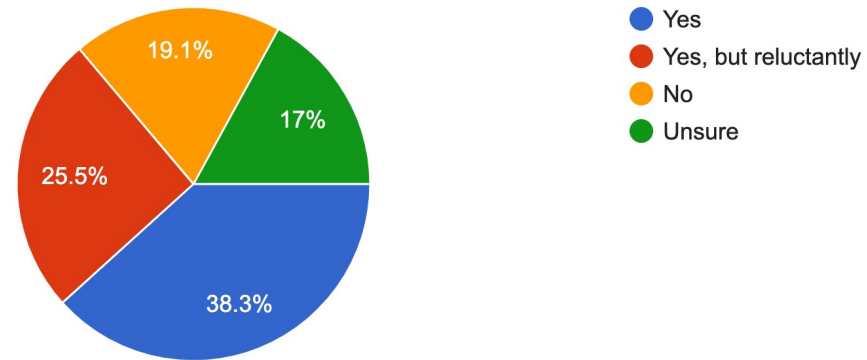

47 responses

PARENT SURVEY RESULTS: MASKING

15. If California continues to require masks for all students while indoors next school year, do you plan to keep your children in public school?

47 responses

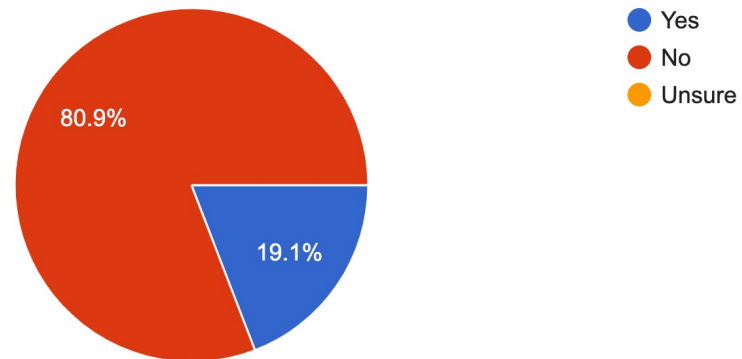

PARENT SURVEY RESULTS: VACCINE

- 81% of students have not been vaccinated and do not plan to get vaccinated in the next 6 months
- 75% of parents will not have their children vaccinated in order to remain in school
- 89% of parents do not agree with children getting vaccinated without parental consent

PARENT SURVEY RESULTS: VACCINE

16. Has your child already received the COVID-19 vaccination, or do you plan to have them receive the COVID-19 vaccination in the next 6 months?

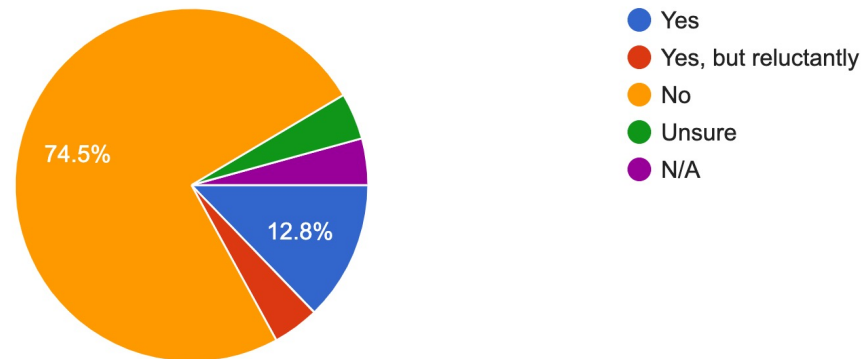

47 responses

PARENT SURVEY RESULTS: VACCINE

17. California State Senator Dr. Richard Pan has introduced Senate Bill 871, which, if passed, would remove the personal belief exemption and require ...accinated in order to keep them in public school?

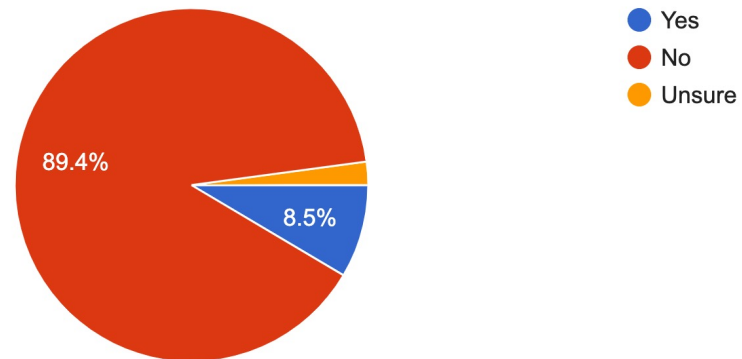

47 responses

PARENT SURVEY RESULTS: VACCINE

18. California State Senator Scott Wiener has introduced Senate Bill 866, which, if passed, would allow students 12 years and older to receive vaccin...ithout parental consent. Do you support this bill?

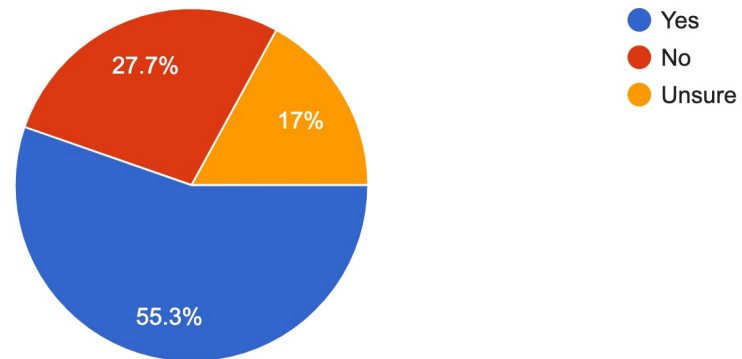

47 responses

PARENT SURVEY RESULTS: TESTING

19. Would you support testing all staff and students after returning from a long break (Winter, Spring, Thanksgiving) in order to reduce the likelihood of an outbreak?

47 responses

PARENT SURVEY RESULTS: COMMENTS

- Fully open the schools or parents will end up putting them into a stable school system away from public school.
- We will not be vaccinating our children and we believe it should be our parental rights...
- My child will be pulled out of school if the Covid 19 vaccine is a requirement
- I love this school so much. My kids feel such a community here. Very strong teachers... Staff are so amazing... I do not want to take this away from my kids as they love learning in this environment...However, I will not consider putting a vaccine in my young children without long-term data.
- Our children need stability and socialization...Our children's emotional health is just as important as their physical health.
- ...IT HAS GREATLY EFFECTED OUR CHILDREN MENTALLY, EMOTIONALLY AND ACADEMICALLY AS WELL AS OUR SCHOOLS IN A VERY NEGATIVE WAY, MAKING IT HARD FOR SOME STUDENTS AND PARENTS TO WANT TO PARTICIPATE IN PUBLIC SCHOOLING...
- The staff is doing an excellent job keeping the students safe at such a difficult time.
- We are thankful for the thoughtful and wise approach to covid that Belleview has taken over the past two years. We would not want our child in any other local school at this time.

CLASSIFIED RESULTS

12/25 Employees responded

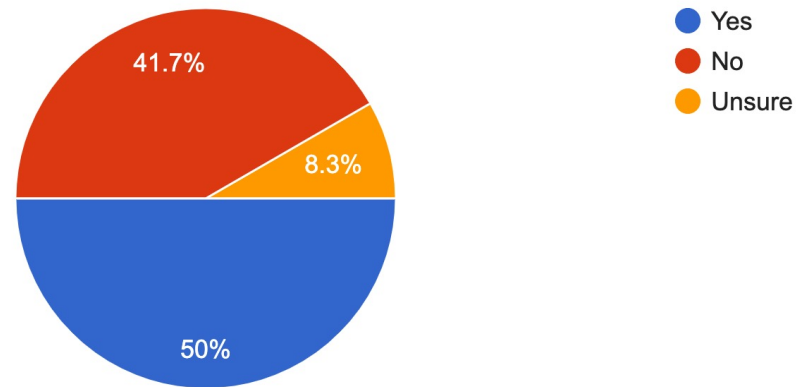

CLASSIFIED SURVEY RESULTS: IMPACT

- 50% of the Classified staff have had COVID-19
- 33% of the Classified staff missed more than 6 days of work

CLASSIFIED SURVEY RESULTS: IMPACT

1. Have you had COVID-19?

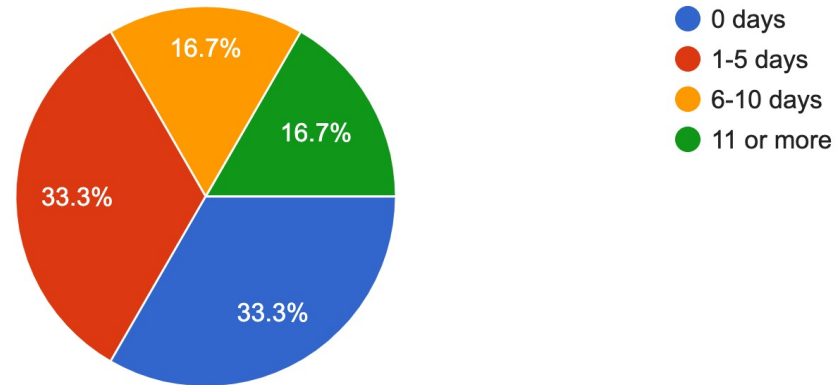

12 responses

CLASSIFIED SURVEY RESULTS: IMPACT

2. How many days have you been home from work due to COVID-19 related reasons?

12 responses

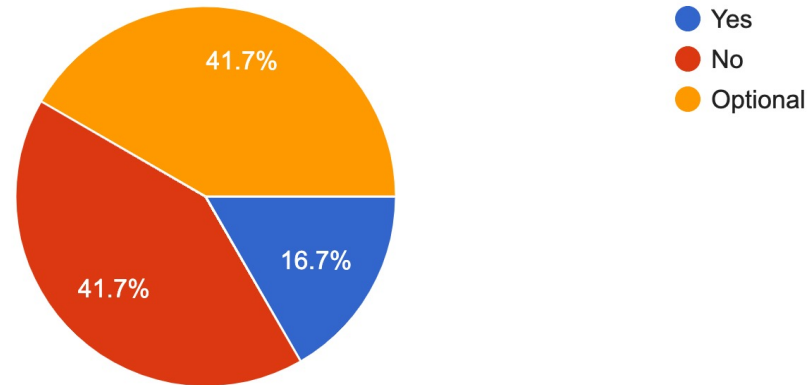

CLASSIFIED SURVEY RESULTS: MASKING

- 83% of the Classified staff feel that masks should be optional or not required
- 92% of Classified staff would feel safe working if masks were not required

CLASSIFIED SURVEY RESULTS: MASKING

3. Do you think that masks should be required while indoors for students and staff?

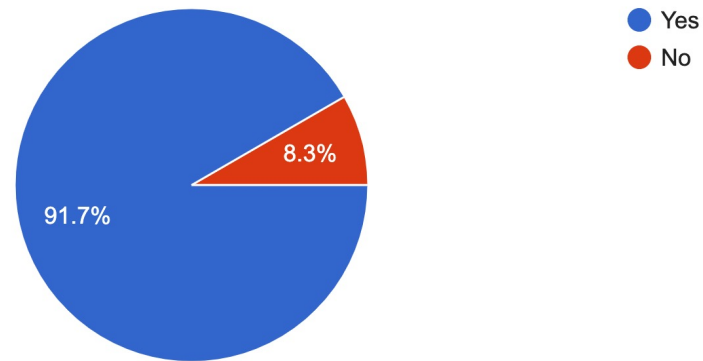

12 responses

CLASSIFIED SURVEY RESULTS: MASKING

4. If masks were optional for students and staff while indoors, would you feel safe continuing to work in your current position?

12 responses

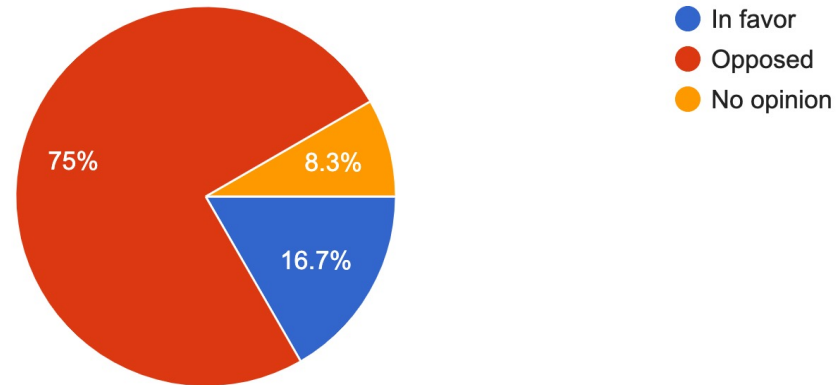

CLASSIFIED SURVEY RESULTS: VACCINE

- 64% of the Classified staff have been vaccinated
- 25% of the Classified staff will not get vaccinated in order to remain in their position
- 75% of the Classified staff are not in favor of requiring the vaccine for students
- 58% of the Classified staff are not in favor of requiring the vaccine for staff

CLASSIFIED SURVEY RESULTS: VACCINE

6. Are you in favor or opposed to requiring the COVID-19 vaccination for students?

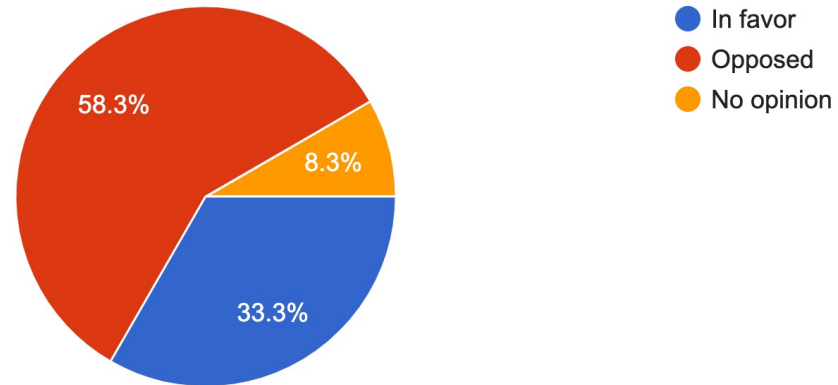

12 responses

CLASSIFIED SURVEY RESULTS: VACCINE

7. Are you in favor or opposed to requiring the COVID-19 vaccination for staff?

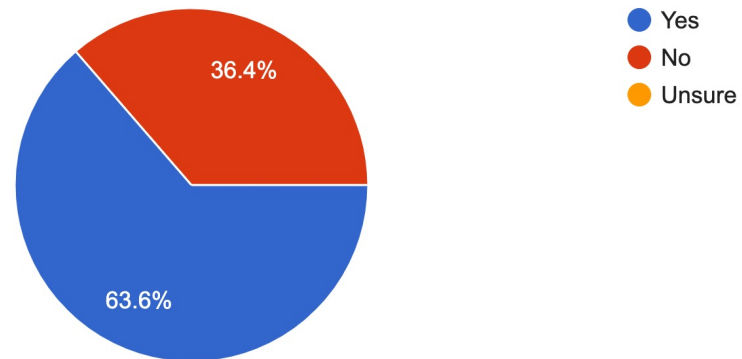

12 responses

CLASSIFIED SURVEY RESULTS: VACCINE

8. Have you already received the COVID-19 vaccination, or do you plan to receive the COVID-19 vaccination in the next 6 months?

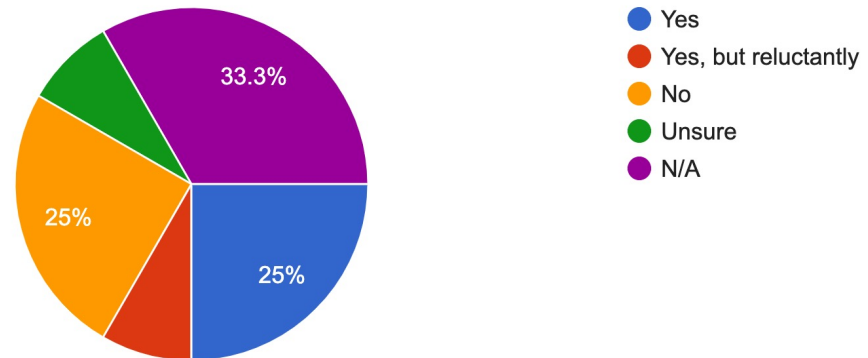

11 responses

CLASSIFIED SURVEY RESULTS: VACCINE

9. If the COVID-19 vaccination is required without a waiver for all staff do you plan to get vaccinated in order to continue in your position?

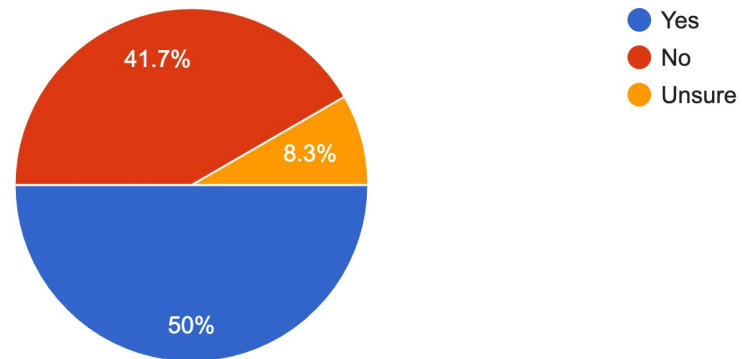

12 responses

CLASSIFIED SURVEY RESULTS: TESTING

10. Would you support testing all staff and students after returning from a long break (Winter, Spring, Thanksgiving) in order to reduce the likelihood of an outbreak?

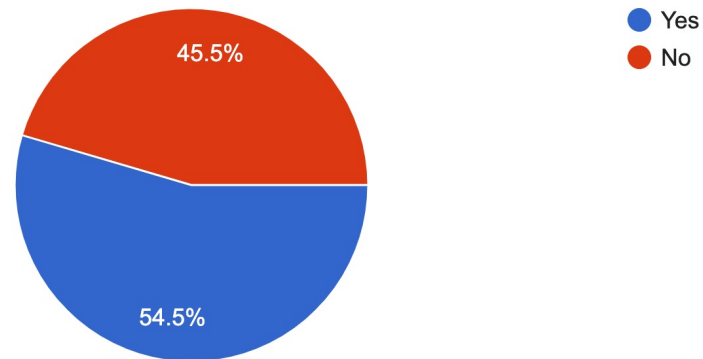

12 responses

CLASSIFIED SURVEY RESULTS: TESTING

5. If a student or staff member received a positive test but were asymptomatic, would you feel safe with them continuing to attend school?

11 responses

CLASSIFIED SURVEY RESULTS: COMMENTS

- concerns of the BOOSTER! I am vaccinated but no booster yet...testing weekly & healthy
- ... I feel that vaccines should be licensed based on long-term clinical trial...

13. Would you support testing all staff and students after returning from a long break (Winter, Spring, Thanksgiving) in order to reduce the likelihood of an outbreak?

5 responses

CERTIFICATED SURVEY RESULTS: COMMENTS

- I would feel comfortable with positive asymptomatic staff continuing to attend school, but I would not feel comfortable with positive asymptomatic students continuing to attend school...
- It's time for the voice of moderation to take over the conversation and recognize individuals rights to choose.
- I oppose vaccinations for younger kids because their bodies seem to be able to fight off this virus pretty well. I am aware of a couple of kids who had bad responses to the Vaccination. Older students (12 and up) I would favor it but not require it.
- Currently, I am in favor of masks, but it looks like the latest Omicron is losing its power. When it becomes less rampant, I would change my mind.
